DEAD FOOT ARMS

The SCW 2.5 Tailhook is by far the most compact PDW-style pistol brace that the industry has ever seen, with a collapsed length of 2.5 inches. While compact, it is still very versatile, allowing for button-free brace deployment and five length-of-pull settings.

BARNAUL AMMUNITION

Affordable .300 Blackout steel case ammunition has arrived. Barnaul Ammunition's .300 Blackout is a 145-grain supersonic cartridge with a polymer-coated steel case moving at 1,985 feet per second. Finally, an option that doesn't break the bank and with the power you want.

BLACK HILLS AMMUNITION

The 6.5mm Creedmoor 120-grain Hornady GMX from Black Hills Ammunition offers up to 50 percent more penetration, plus higher weight retention. It generally retains nearly 100 percent of its weight, compared to 50 to 70 percent for lead-core bullets. It also opens immediately upon impact, causing large-diameter wound cavities and anchoring game quickly and humanely.
